I've bought from all of these companies and been 100% satisfied. YMMV. What are your favorite suppliers that reliably deliver good-quality merchandise at a reasonable price? Cabelas at www.cabelas.com has clothing, hunting, fishing, and survival gear. Big selection of boots and shoes. Fox Ridge Outfitters at www.foxridgeoutfitters.com sells high-quality hunting and survival gear at reasonable prices. Also has good selection of hunting and survival books, beautiful jewelry suitable for gifts to women, and old-fashioned wool hunting clothing. They repair Thompson / Center firearms and sell T/C spare parts. The great pictures in their printed catalog show you exactly what you are getting. Brigade Quartermasters at www.actiongear.com specializes in military, police, and survival equipment. US Cavalry at www.uscav.com is similar to Brigade Quartermasters but has more military gear and less police gear than BQ. TAPCO at www.tapco.com specializes in parts for your SKS, MAK, AK, FAL, and AR15 hunting rifles. Also has some military surplus, gun books, and survival gear. Smoky Mountain Knife Works at www.eknifeworks.com sells a vast assortment of knives at low prices. Long Life Food Depot at www.longlifefood.com has a big selection of MRE: complete meals, entrees, and individual food items. They aren't the cheapest but they probably have the widest selection.
