Ok I know I'm gonna be flamed for this but it'll be the only posting I do. KWC Walther P99 heavy gas blowback pistols packages on clearance. I recently bought out a competitor's store. It's mostly paintball stuff but he has a few airsoft things. I found in all this stuff 4 new in the box KWC Walther P99 heavy duty gas blow back pistols. These are legal US airsoft guns so they have the orange tipped barrels. He had them marked for 139.99 each. I don't deal with airsoft too much so I wanna sell them and sell them quick. I'll give you a can of green gas (priced \$15) and a bag of bb's, they are labeled .20 1/2 kilo. (priced \$22) Priced it would have sold for \$176.99. I'll sell you a package for \$125 shipped to you. Like I said before I have no need for them and just wanna get rid of them. I have looked over his invoices for what he paid and it's a pretty good deal. If interested let me know. I can take Paypal or money order. Thanks Bill paintball t-shirts at: www.BadAspPaintball.com
