---

Hi folks, In the Military Modelling magazine of November 1995, Phil Hyslop did a wonderful article on converting and detailing Tamiya's Panzer II to the C and F versions . He makes reference about a previous article he submitted to MM he did on painting techniques. Does anyone know which article that was ? I am aware of two earlier articles (January and February 1994) on updating and detailing Panzer I conversions but there is no mention of his painting technique. My Military Modelling Mag only goes back to January 1994. Anyone know ?? MJB
